

CLASSIC 5.3 MP / 5.3 MI

Steam generator model with manual (internal) water recharge. In addition to the well-known Ghibli suction power, those new models are also featuring high-performance boilers: 3.7l capacity, (low porosity, higher resistance to limestone) 1500 W plated stainless steel double resistance and a 5 bar operating pressure. The machine can be used up to 75 minutes non-stop and it only takes 15 minutes to recharge it. Powerful 1000 W vac motor and wide range of standard and optional accessories. Available in both plastic and stainless steel versions. Start-and-go machines easy to use, ensuring at the same time the best cleaning results in complete safety and comfort.
